FERTILITY, GENETICS, RELIABILITY RESULTS YOU DEMAND!

SELECT SIRES DELIVERS!

- ◆ As the first major A.I. company to offer sexed semen, Select Sires has the experience and expertise that guarantees the highest quality product for your breeding program.
- ◆ Select Sires offers *gender* SELECTed semen from a variety of bulls, including breed-leading sires, to provide options for even the most particular breeder.
- ◆ Knowledge from Select Sires' on-farm and lab research has been used to maximize the quality and fertility of each sire chosen to be sexed.
- ◆ Select Sires' highest ranking bulls for fertility, based on conventional semen conception data, are routinely considered as candidates for the *gender* SELECTed semen program.
- ◆ At Select's Ohio facility, a large battery of *gender* SELECTed sires allows highly-trained sexing technicians to pick and choose those with only the highest quality sperm cells for processing.

"The best thing that we've ever done here on transitioning 2-year-olds is go to sexed semen. I use sexed semen for one reason - to get a smaller calf and not bruise up a first-calf heifer. I used to have that +/- 100 pound loss in body weight from these beautiful heifers calving in with a bull calf and in four to five weeks they looked horrible... you delay the profitability of these heifers."

- Gary Henrickson, Bella Holsteins 2,000-cow dairy,
Platteville, CO
