

# TREAT HEAT STRESS FROM THE INSIDE

*Let BOVINE ACCELLYTE II reduce stress for both you and your cattle this summer!*

With summer heat approaching, maintaining health, production and growth is vital to being profitable. BOVINE ACCELLYTE II is a specialized electrolyte for periods of stress, rehydration and pre-hydration during events such as:

- Heat stress
- Calving
- Illness
- Feed changes
- Shipping/receiving

BOVINE ACCELLYTE II helps to promote feed and water intake, and therefore, restores electrolyte functions and water retention to prevent losses due to dehydration.

## BENEFITS OF BOVINE ACCELLYTE II

- Provides sodium, chloride and potassium to replace these key electrolytes that are lost from higher respiration and sweating
- Contains dextrose for extra energy
- Provides betaine, an essential osmolyte that helps individual cells retain hydration during heat stress
- Can be fed continuously or targeted specifically to periods of high temperatures and humidity (1-2 day lead time necessary)

## PLAN AHEAD AND SAVE!
